

DISCRIMINATION PROHIBITED--Title VI of the Civil Rights Act of 1964 states: "No person in the United States shall, on the ground of race, color, or national origin, be excluded from participation in, be denied the benefits of, or be subjected to discrimination under any program or activity receiving Federal financial assistance." Therefore, the Hospital and Medical Facilities (Hill-Burton) program, like every program or activity receiving financial assistance from the Department of Health, Education, and Welfare, must be operated in compliance with this law.

FOREWORD

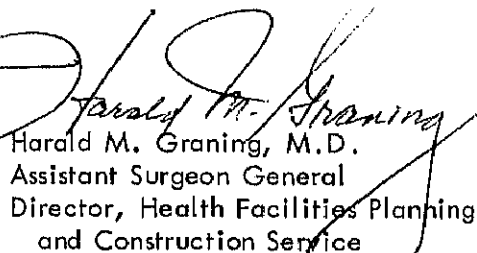

This annual edition of the Hill-Burton Program Progress Report presents national and State statistics on the more than 10,000 projects which have been approved for the construction, modernization, and replacement of voluntary nonprofit hospitals and other health facilities throughout the country. The Hill-Burton Program's objective of keeping in step with current national and State health facility construction needs is reflected in this report.

In recent years, a major portion of the Hill-Burton grant funds has gone toward meeting the Nation's \$11 billion modernization need. As the tables depict, grants to hospitals and other health facilities for additions, alterations, and replacements during the past five years have totaled \$1,056 million as compared with \$149 million expended for new construction. Over 75 percent of the funds used for the modernization of general hospitals went to facilities having 100 or more beds.

Still another "new look" being associated with Hill-Burton is the growing trend to provide increased assistance for outpatient and rehabilitation facilities. A case in point is the Program's 10,000th project which was approved during fiscal 1969. Recipient of the award was Villa Rosa Rehabilitation Center, a satellite of the Santa Rosa Medical Center, San Antonio, Texas. Comprehensive health care is the Center's major objective.

Many staff members of the Office of Program Planning and Analysis of the Health Facilities Planning and Construction Service were involved in producing this publication. However, Miss Anna Mae Baney, Special Assistant, and Mrs. Angeline D. Ursitti, Chief, Statistical Reports and Records Branch, had primary responsibility for its preparation.

We hope that all of the data presented will be helpful to the many persons and agencies involved in providing better patient care to the people throughout this country.

Harold M. Graning, M.D.
Assistant Surgeon General
Director, Health Facilities Planning
and Construction Service

LEGISLATIVE BACKGROUND

1946 Hospital Survey and Construction Act--Hill-Burton Program (Public Law 79-725, Title VI of Public Health Service Act, August 1946)

Authorized grants to States for:

Surveying needs and developing State plans for construction of facilities.

Assisting in constructing and equipping needed public and voluntary nonprofit general, mental, tuberculosis and chronic disease hospitals, and public health centers.

1949 Amendments to Hospital Survey and Construction Act (Public Law 81-380, October 1949)

Authorized the Public Health Service to conduct and provide grants for research, experiments, and demonstrations relating to the development, effective utilization, and coordination of hospital services, facilities, and resources. (Funds not appropriated until 1956 Appropriation Act.)

1954 Amendments to Hospital Survey and Construction Act (Public Law 83-482, July 1954)

Broadened program to provide specific grants for construction of public and voluntary nonprofit nursing homes, diagnostic or treatment centers, rehabilitation facilities, and chronic disease facilities.

1958 Amendments to Hospital Survey and Construction Act (Public Law 85-589, August 1958)

Gave sponsors who meet the standard eligibility and priority qualifications the option to take a long-term loan in lieu of a grant.

1961 Community Health Services and Facilities Act of 1961 (Public Law 87-395, October 1961)

Increased appropriation authorization for construction of nursing homes from \$10 million to \$20 million annually.

Raised annual research appropriation authorization to \$10 million and authorized appropriations for experimental and demonstration construction and equipment projects.

1964 Hospital and Medical Facilities Amendments of 1964 (Public Law 88-443, August 1964)

Extension of the Hospital and Medical Facilities Survey and Construction program through June 30, 1969.

Authorization of appropriations over a 5-year period totaling \$1.34 billion in grants and loans for new construction, modernization, and replacement of hospitals, long-term care facilities (including nursing homes), public health centers, diagnostic or treatment centers, and rehabilitation facilities.

\$160 million was authorized for modernization and replacement over a 4-year period beginning with fiscal year 1966. Considerable flexibility is permitted in transferring funds between the new construction and modernization categories.

\$350 million was authorized for long-term care facilities over a 5-year period. This category combines the previously separate grants programs for chronic disease hospitals and nursing homes; the annual ceiling was raised from \$40 million to \$70 million.

Other authorizations over the 5-year period include:
Hospitals and public health centers -- \$680 million
Diagnostic or treatment centers -- \$100 million
Rehabilitation facilities -- \$50 million

Program of project grants to help develop comprehensive regional, metropolitan area, or other local area plans for health and related facilities. (Previously, demonstration grants supported areawide planning efforts.)*

Use by States of 2 percent of their allotments (up to \$50,000 a year) to assist in the efficient and proper administration of the State plan.

Continuation of grants program to support research and demonstration projects pertaining to hospital operation. (See 1967 Partnership for Health Amendments.)

* 1966 Comprehensive Health Planning and Public Health Services Amendments (Public Law 89-749) transferred such authority from the program as of June 30, 1967.

1967 Partnership for Health Amendments of 1967 (Public Law 90-174, December 5, 1967)

Section 304 of the Public Health Service Act was amended by repealing Section 624, a program of project grants for research and demonstrations, administered by the Hill-Burton program. At the same time, there was established under Section 304 the National Center for Health Services Research and Development, which assumed, among other responsibilities, the authority to administer a program of project grants for research and development, similar to the Section 624 program which had been repealed.

1968 Hospital and Medical Facilities Construction and Modernization Assistance Amendments of 1968 (Title IV, Public Law 90-574, October 1968)

Extension of the Hospital and Medical Facilities Survey and Construction program through June 30, 1970.

HILL-BURTON HIGHLIGHTS

July 1, 1947 through June 30, 1969

By June 30, 1969, a total of 10,171 projects had been approved since the beginning of the program. These projects, providing 442,965 inpatient care beds in hospitals and nursing homes and 2,888 outpatient facilities, involved:

Total costs	\$11.29 billion
Federal share	3.41 billion
State and local funds	7.88 billion

TYPE OF CONSTRUCTION

Since the inception of the program in 1946, roughly two-thirds of all Hill-Burton projects were for additions, alterations, or replacements. During the past five years, however, the percentage going to additions, alterations, and replacements has risen sharply -- accounting for more than 85 percent -- as compared with a lower percentage being expended on new facilities.

	7/1/47 - 6/30/69		7/1/64 - 6/30/69	
	Projects	Hill-Burton Funds	Projects	Hill-Burton Funds
New facilities	34.8%	31.1%	13.7%	12.4%
Additions, alterations, and replacements	65.2	68.9	86.3	87.6

TYPE OF CONTROL

The 5,128 projects in voluntary nonprofit facilities are providing 261,768 beds and represent 50.4 percent of all projects, 59.1 percent of the beds, and 58.1 percent of all Hill-Burton funds.

The 5,043 projects in publicly owned facilities account for 49.6 percent of all projects, 40.9 percent of the beds, and 41.9 percent of the Hill-Burton funds. Of these, 4,403 projects are in local publicly owned facilities, and 640 are in State owned facilities.

TYPE OF FACILITY

Hospital and long-term care facility projects approved under the Hill-Burton program during July 1, 1947 - June 30, 1969, have provided a total of 442,965 beds:

Type of Facility	Inpatient Beds	Hill-Burton Funds (in millions)
<u>Total</u>	<u>442,965</u>	<u>\$3,408.8</u>
General hospitals	325,126	2,449.9
Long-term care facilities	89,313 ^{1/}	455.1
Units of hospitals	48,772	276.7
Nursing homes	33,525	143.7
Chronic disease hospitals	7,016	34.7
Mental hospitals	21,042	78.4
Tuberculosis hospitals	7,484	27.9

Outpatient facilities include:

990 Diagnostic or treatment centers	\$174.4
495 Rehabilitation facilities	118.1
1,233 Public health centers ^{2/}	91.4
40 State health laboratories	13.6

^{1/} Excludes 7,140 long-term care beds built in conjunction with general and other hospital projects, for which funds cannot be separated from total project costs; these 7,140 beds are reported in the following categories of facilities: general hospitals, 7,044 beds; mental hospitals, 60 beds; tuberculosis hospitals, 36 beds.

^{2/} Excludes 130 public health centers built in combination with general hospitals.

GENERAL HOSPITALS

The 5,540 projects providing 325,126 beds account for :

55% of all approved projects

73% of all beds in approved projects

72% of all Hill-Burton funds allocated to date

LONG-TERM CARE FACILITIES

Long-term care facilities include long-term care units of hospitals, nursing homes, and chronic disease hospitals.

The 1,598 long-term care projects have provided 89,313 beds in the following types of facilities:

Units of hospitals	48,772 or 54.6%
Nursing homes	33,525 or 37.5%
Chronic disease hospitals	7,016 or 7.9%

These projects account for 16 percent of all approved projects and 13 percent of the Hill-Burton funds.

In addition, 7,140 long-term care beds have been constructed in conjunction with general or other hospital projects where the long-term care portion of cost cannot be separated from other hospital project costs.

Table 1. HILL-BURTON APPROPRIATIONS
By Fiscal Year, 1948 - 1969

<u>Fiscal Year</u>	<u>Total Amount (000's)</u>	<u>Fiscal Year</u>	<u>Total Amount (000's)</u>
1948	\$ 75,000	1959	\$185,000
1949	75,000	1960	185,000
1950	150,000	1961	185,000
1951	85,000	1962	209,728
1952	82,500	1963	220,000
1953	75,000	1964	220,000
1954	65,000	1965	220,000
1955	96,000	1966	258,500
1956	109,800	1967	270,000
1957	123,800	1968	267,200
1958	120,000	1969	267,200

NOTE: Federal assistance under the Hill-Burton program is made available through annual Congressional appropriations. Each appropriation is then allocated among the States and Territories in accordance with a statutory formula based on population and relative per capita income. The legislation provides that these allocations are available for the fiscal year in which the funds are appropriated and for the succeeding fiscal year. Thus, in effect, each annual appropriation is available for a two-year period for each State and for a three-year period for the Territories. It should also be noted that beginning with fiscal year 1965, 2 percent of the State allocation (up to \$50,000 per year) could be used by each State "for the proper and efficient administration" of their Hill-Burton State Plan.

Tables 2-3 show the number of projects approved, facilities provided, and Federal funds obligated which are produced from each annual appropriation. Because of the more than one-year availability of funds, the data shown in tables 2-3 for fiscal year 1969 are incomplete. Additional projects may be submitted and approved during fiscal year 1970 from the remaining unobligated 1969 funds.

Table 2. TOTAL PROJECTS APPROVED
By Fiscal Year of Appropriation, July 1, 1947 - June 30, 1969

Fiscal Year	Number of Projects	Inpatient Beds	Outpatient Facilities ^{1/}	Total Cost	Federal Funds Obligated ^{2/}

1/ Includes diagnostic or treatment centers, rehabilitation facilities, and public health centers.

2/ Public health centers built in combination with general hospitals and not reported as separate projects.

3/ Excludes 7,140 long-term care beds built in conjunction with general and other hospital projects, for which funds cannot be separated from total project costs; these 7,140 beds are reported in the following categories of facilities: general hospitals, 7,044 beds; mental hospitals, 60 beds; tuberculosis hospitals, 36 beds.

More than half of all Hill-Burton projects have been for general hospital facilities - (July 1, 1947-June 30, 1969)

* Includes long-term care units of hospitals, nursing homes, and chronic disease hospitals.

† Includes mental and tuberculosis hospitals, diagnostic or treatment centers, rehabilitation facilities, public health centers, and State health laboratories.

Table 5. BEDS ADDED by Type of Facility and Type of Bed
July 1, 1947 - June 30, 1969

Type of Facility ^{1/}	Type of Bed					Tubercu- losis
	Total Beds	Acute Care	Long-Term Care Units	Nursing Homes ^{2/}	Chronic Disease Hospitals	
<u>Total</u>	<u>442,965</u>	<u>307,134</u>	<u>55,912</u>	<u>33,525</u>	<u>7,000</u>	<u>9,351</u>
General Hospitals	373,898	306,980	55,816	-	-	1,461

^{1/} Includes nursing homes, chronic disease hospitals, and long-term care units of hospitals.

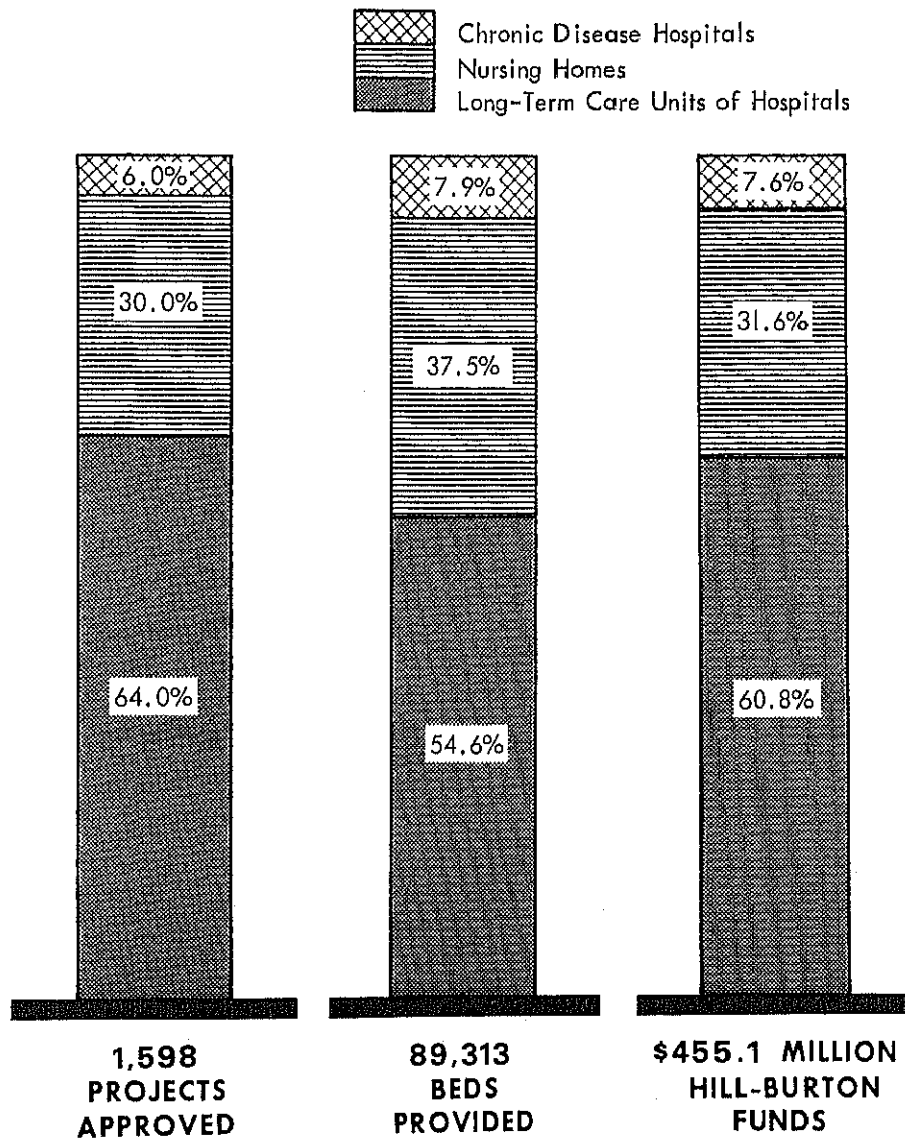

NOTE: Funds were first specifically authorized for the construction of long-term care facilities for fiscal year 1955, in accordance with the 1954 amendments to the Hill-Burton Act. Previously funds available for hospitals and public health centers could assist in the construction of chronic disease facilities; nursing homes were not eligible for assistance.
